```

Problems Output Debug Console Terminal Ports

C:\Users\DELL\.cursor>streamlit run carroms_game.py

You can now view your Streamlit app in your browser.

Local URL: http://localhost:8501

Network URL: http://192.168.1.28:8501

powershell

streamlit

Ctrl+K to generate a command

Just a friendly hello

create snake game app with python programming and create front end using streamlit

build carroms app with python and create front end

I'll create a Carroms (Carrom) game app using Python and Streamlit. This will be a digital version of the classic tabletop game with realistic physics and intuitive controls.

carroms_game.py +488 ✓

import streamlit as st
import math
import random
import json
from datetime import datetime

Page configuration
st.set_page_config(
 page_title="Carroms Game",
 page_icon="🎲",

I need to add the missing import for the time module:

carroms_game.py +1 ✓

import json
import time
from datetime import datetime

Carroms Game

Welcome to Carroms!

How to Play:

- Use the striker to pocket the pieces
- Black and white pieces are worth 10 points each
- Red piece (queen) is worth 50 points
- Take turns between players
- Aim and adjust power for your shots

Features:

- Realistic physics simulation
- Multiple game modes
- Score tracking
- Adjustable difficulty
